

Mexico city, March, 10th 2017
OFICIO NUM. CCFARO/168/2017

Aviva Baff
Mentor Program Manager
The Clubhouse Network: A Global Community for Creativity & Achievement
Museum of Science, Boston

We here by inform you that Yurian Zeron responsible for The ClubHouse Network FARO de Oriente, for this occasion will not attend the annual convention to be held in Minneapolis, Minnesota from April 3 to 7; his absence has been determined due to changes in the migration policy of the Government of the United States of America, for which various deportation events have recently been developed for Mexican citizens, some already resident in their country and some others Mexican compatriots who have decided to travel. We believe it is appropriate to wait this year to see how the migration and entry policies to the US are based.

We hope next year we will have a better certainty of the operation of the policies of migration in both countries.

We are in the best disposition to continue applying the projects emanated from the World Network of The ClubHouse. Our colleague Yurian Zeron will be in permanent contact with you and with the Latin America network to follow the processes that are developpe, globally, by The clubhouse network, for which we ask your understand and support our decision not to attend the annual convention in this year, resumming the assitence the comming year.

We hope that this decision does not affect at all in the renewal of the license of which we are beneficiaries. This omission will allow us to create a savings fund that will help us to finance the future expenses of the commitments acquired by the network

Sincerely

José Luis Galicia Esperón

Vice principal Faro de Oriente
